

Toilet Paper Pumpkin

You'll Need:

- 1 roll – Toilet Paper
- 27"x27" piece of burlap (or any fabric of your choice)
- Raffia
- 6" stick from outside
- Fall Leaves
- Polyfill

Directions:

1. Cut your burlap or whatever fabric you chose into a 24 inch circle. You really just want to cut your corners off and make your fabric piece more round.
2. Sit the toilet paper on the fabric and place some polyfill around it. Pull the fabric up over the polyfill and stick it into the hole in the toilet paper. If you're using burlap fabric, this will be very hard to do. Stick the fabric in as far as you can with your fingers and then put a pencil or pen into the hole and tap with a hammer. This will push the fabric farther down, and make a hole for your stick.
3. Glue the stick down into the hole in the toilet paper. Tie some raffia around the stick and glue some fall leaves around the stick.
4. You're done! 😊
