Jar with Etched Stars

1. Paint the entire jar with one light coat of the Lace chalk paint. Once dry, apply light coats of the Rouge and Honor chalk paint as desired. *Make sure you don't make the coats too thick or you won't be able to see the lights shining through!* Let dry.

3. Tie ribbon around the top of the jar and into a bow. Put the lights in the jar and you're done!

Let dry.
2. Hot glue the metal stars to the outside of the jar. Tie the ribbon around the top of the jar and into a bow. Put the lights in the jar and you're done!
