

18 Inch Burlap Mesh Pumpkin Project

Supplies needed:

- 1- 18 Inch Wire Wreath Form
- 1- Roll Burlap Orange Mesh
- 4yds of Brown Burlap Ribbon
- 1 pk Orange Chenille Stems
- Asst Fall Foliage (your choice)

1. Gather up the end of your Burlap Mesh and pull it over the outer ring of your wire wreath form. Use a chenille stem to tie it on. Your chenille stem should be on the back of your wreath form. Pull your burlap mesh straight down the middle of your wreath form and over the outside ring at the bottom. Use a chenille stem to tie it on at the back and cut off your excess. Waste as little as possible because you are going to need the entire roll.

2. Working from the middle out (see diagram to the left), repeat step 1 six more times. Tie each chenille stem together in the back to hold them in place. You will need to pull the Deco Mesh over the sides of the wreath form to completely cover it.

3. Using a hard surface, gently push down on the top of the wreath form until it resembles an oval shape. This makes the shape of the pumpkin and pushes the burlap out to give it a fuller look.

4. Tie a 4yd bow using the brown burlap ribbon and glue it to the top of the pumpkin.

5. Using the fall foliage you chose, begin gluing them under the bow until you have achieved the desired look.

6. Enjoy your Burlap Mesh Pumpkin Wreath!
