

5ft Mesh Snowman Tree

Supplies needed:

Qty	Description	Item #
1ea	5ft Mt. Alpine	RC-1032T
1 set	100ct Clear Lights	
4 rolls	White Mesh	XB905-01
1 set	140ct Deco Lights	LT140-1
2ea	Snow Twig Spray	XF1313-WH/BR
1ea	Sign	84515RD
1pkg	Grapevine Balls	M9161
1pkg	Small Snowflakes	2469-35
1pkg	Snowflakes	1619-60
1ea	Red Bird	C18520
½ yd	#9 Red & Black Check Ribbon	
4yd	#40 Red & Black Check Ribbon	
1ea	Snowman Head	
Bottom		
¾ yd	Felt	
1ea	2yd Bow	
1yd	¼" White Grosgrain Ribbon	
	Polyfill	

1. Fluff the 5ft Mt Alpine tree (don't use the topper). Wrap the 100ct clear lights around the tree BEFORE you put the mesh on.
2. Take your mesh and bunch up one end and start at the bottom where the wood trunk begins. Going around the tree bunch up about 8 to 12 inches of the mesh and tuck it and use a pine branch to wrap around the burlap to hold it in place. Continue doing this around the tree until you cover the tree.
3. Wrap the 140ct white wire clear lights around the outside of the mesh starting at the bottom all the way to the top.
4. Place snowman head on the top of the tree and glue to the top of the wood trunk.
5. Hot glue the grapevine balls to the front of the snowman.
6. Tuck the arms in the tree. Glue the bird onto one of the arms and put the sign on the other arm.
7. Glue snowflakes on the mesh as well as the hat on the snowman head.
8. Put the polyfill on the felt for the bottom of the tree. Fold the felt up and tie it with the ribbon. Tie the bow around the ribbon tie.
9. You're done! 😊
